

PURPOSE: This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

CFDs are complex instruments and come with a high risk of losing money rapidly due to leverage. 77.95% of retail investor accounts lose money when trading CFDs with Instant trading EU Ltd. You should consider whether you understand how CFDs work and whether you can afford to take the high risk of losing your money.

PRODUCT

PRODUCT NAME: ETF CFD

PRIP Manufacturer: Instant Trading EU Ltd (ITEU)

Competent Authority: Cyprus Securities and Exchange Commission (the "CySEC" or "Commission") with license number 266/15.

6th March 2023 www.instaforex.eu support@instaforex.eu

You are about to purchase a product that is not simple and may be difficult to understand

What is this product?

Type: An Over the Counter ("OTC") Derivative Contract for Difference ("CFD") – ETF CFD

Objectives:

- An ETF CFD is not a listed instrument but is traded as an over-the-counter contract between you and Instant Trading EU Ltd.
- An ETF CFD enables you to have exposure to price movements on the underlying ETF. An ETF CFD is an agreement between you and Instant Trading EU Ltd to exchange the difference in price of the underlying asset over a period of time. The difference to be exchanged is determined by the change in the price of the underlying ETF. An ETF CFD can be bought long or sold short to suit your view of market direction in the future.
- An ETF CFD is a leveraged product that requires you to deposit a smaller amount of cash as margin than the notional value of the position. For retail investors, the European Securities and Markets Authority (ESMA) mandates a minimum initial margin of 20% of the notional value of the ETF CFD, depending on the share, and requires ITEU to liquidate open positions if the qualifying equity (CFD cash and unrealized CFD P&L) in your CFD account falls below 50% of the initial margin requirements for all CFD positions. In addition, ITEU establishes house-margin requirements based on historical volatility of the underlying and other factors and will apply the house-margin requirement if it is higher than the ESMA requirement.

Intended Retail Investor: This product is intended for investors who want to gain exposure to the underlying stock and who understand that by holding this instrument they receive exposure to the underlying asset on a leveraged basis and may lose more than the initial margin deposited to open the position. Note, however, that ESMA prescribes that losses reported by a retail investor cannot in aggregate exceed the funds invested in a retail CFD account.

By way of example, you deposit €10,000 in your retail CFD account and open a long position with a notional value of €20,000. The initial margin paid to open the position is €4,000. If the position loses 15% of its initial value and it is closed out, you will have reported a loss of €3,000.

Insurance Benefits None

Term: The spot CFD instrument does not have any maturity date. There is no predetermined investment holding period or contract expiration implicit in this instrument - it is an open-ended investment to be bought and sold at your discretion. Please consult the ITEU website for trading hours.

What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products.

Risk Indicator:

Lower risk	1	2	3	4	5	6	7	Higher risk
------------	---	---	---	---	---	---	---	-------------

It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 7 out of 7, which is the highest risk class. This rates the potential losses from future performance at a very high level in poor market conditions. **Be aware of currency risks. When you deal in a CFD that is denominated in a currency other than the base currency or a currency you have on a deposit in your account with us, all margins, profits, losses and financing credits and debits in relation to that CFD are calculated using the currency in which the CFD is denominated. This risk is not considered in the indicator shown above.** In some circumstances, if your account does not contain enough equity to meet applicable margin requirements your open positions will be liquidated. **The total loss you may incur may significantly exceed the initial margin requirement but cannot exceed the equity in your retail CFD account.** You may not be able to close your position easily or you may have to sell at a price that significantly impacts your realised profit/loss. Markets may fall overnight and we may not be able to close out your position at a price that would avoid losses greater than the margin originally deposited. In addition, if Instant Trading EU LTD is not able to pay you what is owed, you could lose your entire investment.

Performance scenarios: Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies. What you get will vary depending on how the market performs and how long you hold the CFD. The different scenarios show what you might get back in different market circumstances, and they do not take into account the situation where we are not able to pay you. This key information document applies to any CFD. For each trade you enter, you will be responsible for choosing the CFD instrument, the opening and closing time, the size of the trade (risk), and whether to use any risk mitigation features (such as stop loss orders).

The performance and risks associated with this product depend on a number of factors some of which are determined by the client such as account leverage, utilization leverage and holding period.

The assumptions used in the performance analysis are described below:

CFD on XLK.etf	Performance Scenarios
XLK.etf opening price	152.41
Holding Period	1 day
Investment Value	€10,000.00
Leverage	5
Notional Value	€50,000.00

Performance Scenarios:

Scenarios (assuming EUR 10000 investment held for 1 day)		Low volatility	Medium volatility	High volatility
Stress Scenario	Profit/Loss after the costs	-€2,500.00	-€3,750.00	-€5,000.00
	Price change of the underlying	-5.00%	-7.50%	-10.00%
	Daily return	-25.00%	-37.50%	-50.00%
Unfavourable Scenario	Profit/Loss after the costs	-€1,725.00	-€2,600.00	-€3,500.00
	Price change of the underlying	-3.45%	-5.20%	-7.00%
	Daily return	-17.25%	-26.00%	-35.00%
Moderate Scenario	Profit/Loss after the costs	-€950.00	-€1,450.00	-€2,000.00
	Price change of the underlying	-1.90%	-2.90%	-4.00%
	Daily return	-9.50%	-14.50%	-20.00%
Favourable Scenario	Profit/Loss after the costs	€1,725.00	€2,600.00	€3,500.00
	Price change of the underlying	3.45%	5.20%	7.00%
	Daily return	17.25%	26.00%	35.00%

What happens if Instant Trading EU Ltd is unable to pay out?

The clients' money held by the Company is held in segregated bank accounts, separately from the Company's own funds, and safeguarded with highly-rated credit institutions in Europe. The Company performs, on a daily basis, internal and external reconciliations as required by the CySEC and prescribed by the rules of MiFID II for the Company to ensure that it maintains adequate amounts in its clients' accounts to cover all client funds.

In the unlikely event that the Company will be unable to pay you out, the client can contact the Investor Compensation Fund (the "ICF"). The ICF is the Cyprus statutory fund of last resort for customers of Cyprus Investment Firms ("CIFs"). This means that the ICF can pay compensation up to €20,000 per eligible client, if the Company is unable to fulfil its financial obligations. The actual level of compensation that will be paid out by the ICF will be based on your claim. The ICF is an independent body, set up under the Investment Services and Activities and Regulated Markets Law of 2007, which the Company is part of, as it is authorised and regulated by the CySEC (License Number: 266/15).

What are the costs?

The Reduction in Yield ("RIY") shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amount shown here are cumulative costs of the product itself for an estimated holding period of 1 day. The figures assume you invest €10,000 for a €50,000 notional value. The figures are estimates and may change in the future.

Costs Over Time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and show you the impact that all costs will have on your investment over time

Investment EUR 10000 Scenarios	If you cash in after 1 day
Total costs	€20.23
Impact on return (RIY) per day	1.95%

Composition of Costs

The table below shows:

- The impact of the different types of costs.
- What the different cost categories mean.

CFDs on ETFs (Example: XLK.etf)					
	Type of cost	ECN	ECN PRO	ECN VIP	
Spread*	One-off	1	1	1	The difference between the bid (sell) price and the ask (buy) price of an instrument.
Swaps (rollover rate)**	Recurring	-12%	-7%	-5%	Net interest return on a currency position held overnight by a trader
Commissions***	One-off	0.04%	0.025%	0.01%	Commission is the charge levied by an investment broker for making trades on a trader's behalf.
Incidental costs	Performance fee	n/a	n/a	n/a	Incidental expenses, also known as incidentals, are gratuities and other minor fees or costs incurred in addition to the main service, item, or event paid for during business activities.
	Carried fee	n/a	n/a	n/a	

* spread shown is the average floating spread in points

** swaps are shown in % per year

*** commission is shown per deal (per side)

Compound effect of costs	Spread (in pips)	Spread value in EUR	Commission	Commission value in EUR	Swaps 1 night	Swaps value in EUR	P/L	Net Profit	total Costs	Percentage of Costs on Return
ECN	1	€0.92	0.04%	€11.19	-12%	€4.66	€289.58	€272.81	€16.77	5.79%
ECN PRO	1	€0.92	0.025%	€6.99	-7%	€2.72	€289.58	€278.95	€10.63	3.67%
ECN VIP	1	€0.92	0.01%	€2.80	-5%	€1.94	€289.58	€283.92	€5.66	1.95%

How long should I hold it, and can I take money out early?

Recommended (required minimum) holding period: None

There is no recommended holding period or minimum holding period. There are no consequences of you choosing to close your position other than ending your exposure to the underlying at that time.

Early termination may occur in the event your account has insufficient funds to support the margin requirement for your position, as a consequence of certain corporate actions, or if Instant Trading EU LTD for other reasons decides to discontinue the CFD, or if Instant Trading EU LTD were to become insolvent.

How can I complain?

You should submit a complaint via email compliance@instaforex.eu. A copy of the Company's Complaints Handling Procedure can be found [here](#).

If you are not satisfied with the Company's final decision, then you can submit a complaint to the Financial Ombudsman at <http://www.financialombudsman.gov.cy>.

Other relevant information

Additional important documents such as Terms and Conditions, Order Execution Policy, Privacy Policy, Risk Disclosure, Pillar III Disclosures etc. are included [here](#). These are important documents for you to read and understand prior to opening an account and starting trading with the Company.
